

CHC Group Receives Court Approval of “First Day” Motions to Support Business Operations

(May 9, 2016)

IRVING -- CHC Group (OTC Pink Sheets: HELIQ; the “Company” or “CHC”) today announced the Company has received approval from the United States Bankruptcy Court for the Northern District of Texas for its First Day motions related to its voluntary Chapter 11 reorganization. Collectively, the First Day orders issued by the Court will help CHC continue to operate its business in the normal course while the Company works to restructure its balance sheet and fleet.

The Court approved motions giving CHC authority to, among other things, provide employee salaries, healthcare coverage and other benefits; access its cash and cash collateral and continue its current cash management system; and maintain and honor customer deposits in the normal course throughout the court-supervised restructuring process.

CHC expects day-to-day operations to continue without interruption throughout the process. The Company expects to maintain sufficient liquidity throughout the restructuring process to maintain its continuing business operations.

Karl Fessenden, President and Chief Executive Officer:

“The Court’s approval of our first day motions is another positive step forward in our efforts to restructure our balance sheet and fleet, and should provide our customers, suppliers, and employees with confidence in CHC’s ability to continue normal business operations worldwide throughout this court-supervised reorganization process. We remain committed to delivering safe and reliable service to our customers. We also appreciate the ongoing partnership of our customers and suppliers, and thank our employees for their continued dedication. Our objective is to establish a competitive capital and operating structure, enabling CHC to remain a world class helicopter service provider – one that continues to set the standard for safety, customer service and value across the industry.”

As previously announced, on May 5, 2016, the Company and certain of its wholly-owned subsidiaries filed voluntary petitions for relief under Chapter 11 of the United States Bankruptcy Code in the United States Bankruptcy Court for the Northern District of Texas to facilitate the restructuring of its balance sheet and fleet, and position the Company for long-term success. The reorganization is expected to strengthen CHC’s financial position by reducing long-term debt and enhancing financial flexibility while allowing the Company to manage and operate its fleet of aircraft.
