

## CHC Helicopter Signs Gjøa Field Contract

(Sep 24, 2010)

CHC Helicopter, the world's leading offshore helicopter services provider, has signed a five-year contract covering the transport of staff to the Gjøa Field in the North Sea.

"I am proud that GDF SUEZ E&P NORGE chose CHC Helicopter as provider of helicopter services, when they for the first time take on an operatorship for a field in operations on the Norwegian shelf" said Tilmann Gabriel, Chairman of CHC Norway and President of CHC European Operations. "I am looking forward to a long lasting partnership with the GDF SUEZ E&P Norge with the prospect of mutual growth."

The new S92A Sikorsky helicopter will be based in Florø at GDF SUEZ's base and strengthens Florø's position as a base for North Sea operations, when the operations starts later this fall.

"One of the responsibilities of taking over operations on Gjøa is to provide our staff with a reliable transportation," said Terje Overvik, Managing Director of GDF SUEZ E&P Norge AS. "By choosing CHC Helicopter, we have found a solid partner with long traditions on the Norwegian shelf."

"It doubles our activities at the base in Florø, and it is a big win for us to capture a contract with a new operator that has huge growth potential," said Geir Tynning, Commercial Director of CHC Norway.
